Moose Jaw Aerial Lift Train the Trainer

Moose Jaw Aerial Lift Train the Trainer - The Aerial Lifts Train the Trainer Certification Program would teach trainers how to efficiently train operators in safe industrial mobile equipment operation. Trainers are provided with in-depth instruction about aerial lift machine. The program is provided on an open enrollment basis and delivered at select training sites. Before the certification, trainers are assessed and scored on their knowledge and demonstrated skills.

The Aerial Lifts Train the Trainer Certification Program focuses on practical learning and as the top training provider within the business, we offer top notch hands-on training. We provide plenty of chances to practice the concepts and techniques that are learned within the classroom. In addition to hands-on experience, trainers develop general knowledge of instructional techniques and machinery theory, classroom and field communication skills, and ability to efficiently train and evaluate operators. Trainers would gain knowledge about what traits make a successful trainer.

The Aerial Lifts Train the Trainer Program likewise teaches the correct techniques required to express the right information within the classroom and field environment. There are three factors of machinery operation which the trainer must learn how to convey to operators: what to do; how to do it; and the reason why it has to be carried out.

In the program, trainers would be given the latest, detailed reference material to better help them convey the information to machine operators. The guidebooks used, include detailed information about all aspects of industrial mobile equipment operator training. Included in the package are training aids which provide a visual reference to improve the learning experience. The equipment-specific training products include important materials for both the trainer and the operator: videos/DVD's, overhead transparencies, equipment models, safety message posters; digital training aids and stability pyramid.
